

Rosanna Degani Young Investigator Award

Computing in Cardiology 2015 was proud to host the twenty third Rosanna Degani Young Investigator Competition. Rosanna Degani was a pioneer in the field of electrocardiology from the Institute for Research on System Dynamics & Bioengineering in Padova and Chairperson of the Organizing Committee of the 18th Computers in Cardiology Conference in Venice, September 1991. In her memory the Venice Local Organizing Committee and the Board of Directors of Computing in Cardiology established this award, whose purposes are to encourage young investigators and to provide a living memorial to Rosanna Degani.

On the basis of written manuscripts submitted before the meeting, four finalists were invited to Nice as guests of the Conference to present their research during the opening plenary session. All finalists were given an opportunity to answer questions on their research. The presentations and research papers were judged by a panel of experts.

The winner of the 2015 Rosanna Degani Young Investigator competition was Aurore Lyon, from University of Oxford, Oxford, United Kingdom. The manuscript *"Extraction of Morphological QRS-based Biomarkers in Hypertrophic Cardiomyopathy for Risk Stratification using L1 Regularized Logistic Regression"* can be found on page 9 of the proceedings.

Gary and Bill Sanders Poster Awards

The 2015 conference presented the eighteenth annual Poster Awards, donated and presented by Bill and Gary Sanders. Bill is a Past President of Computers in Cardiology. The six winners this year were Massimo W Rivolta, Andjela Davidovic, Konstantinos N Tzortzis, Laura Bear, Anastasia Khokhlova and Michael Menzel.

PhysioNet/Computing in Cardiology Challenge 2015

The winners of the PhysioNet/Computing in Cardiology Challenge were:

Event 1: Filip Plešinger, Petr Klimeš, Josef Halánek and Pavel Jurák, Czech Republic
Vignesh Kalidas and Lakshman Tamil, USA
Paula Couto, Ruben Ramalho and Rui Rodrigues, Portugal

Event 2: Sibylle Fallet, Sasan Yazdani and Jean-Marc Vesin, Switzerland
Filip Plešinger, Petr Klimeš, Josef Halánek and Pavel Jurák, Czech Republic
Vignesh Kalidas and Lakshman Tamil, USA

Mortara Fellowships Award

Muammar Kabir, USA

Future Meetings

The 2016 conference will be held September 11-14, in Vancouver, Canada

The 2017 conference will be held September 24-27, in Rennes, France

The 2018 conference will be held September 23-26, in Maastricht, The Netherlands

The 2019 conference will be held in Singapore.
